

BUSINESS PROPOSAL

Presented by:

Vijay Chowdary

INTRODUCTION

Welcome to C2H Infotech — We're excited to introduce you to our journey as a fast-growing IT and outsourcing partner, delivering smart solutions that empower businesses to innovate and scale.

 Headquartered in Bangalore, the heart of India's tech landscape, C2H Infotech is proud to deliver superior technology services. And we're expanding fast — with branches thriving in Bangalore and exciting new offices launching soon Dubai and Vietnam, we're growing into a truly international presence.

OUR VALUES

- To become a globally recognized leader in outsourcing and software development
- Our vision is to become the most trusted extension of our clients' teams
- Rooted in Bangalore and expanding into the UAE, Vietnam, we envision a world united by our expertise and driven forward by every client's achievements.

GOALS AND OBJECTIVES

Expand our reach into other key Indian IT hubs—Chennai, Hyderabad, Pune, and Mumbai—by establishing satellite teams and strategic partnerships.

Expand our global presence by successfully launching the UAE branch and establishing strategic partnerships across the Middle East.

Hire and onboard 60 skilled professionals (developers, QA engineers, DevOps specialists) in Bangalore and satellite hubs by Q3 2026 achieving a 90% retention rate at the 12-month mark.

OUR SERVICE

"We specialize in outsourcing highly skilled software professionals to help businesses scale faster and more efficiently. Whether you're looking for short-term project support or long-term development partnerships, we've got you covered."

WHY OUTSOURCE WITH US?

- **Cost-Efficient:** Save on recruitment, training, and operational costs while getting access to premium talent.
- **Faster Time-to-Market:** Our outsourced professionals are ready to plug into your workflow and start delivering immediately.
- **Dedicated Employees for Your Projects:** Our outsourcing model allows you to tap into our pool of highly skilled developers, engineers, and tech experts who work directly on your requirements.
- **Expertise Across Tech Stacks:** Java, Python, .NET, React, Angular, Node.js, and more.
- **Transparent Collaboration:** We facilitate direct communication between clients and outsourced employees, maintaining clarity and trust throughout the partnership.
